## Edible Pup Cookies!

Enjoy time together with your kids by building your own pup treat (not ideal for real dogs!).

You can use different ingredients from around the house.

We luckily had a few things left over from recent holidays that worked great!

### Ingredients:

- 3 Oreo cookies
- Icing, peanut butter, or anything sticky
- Mini marshmallows
- Candy eyes, mini or regular sized M&M's
- Other fun candies & treats to decorate

### Instructions:

- Use the icing, peanut butter, or sticky ingredient to glue your cookies together. Allow a few minutes to set (4 minutes for my red icing).
- Use the icing to glue 4 mini marshmallows at the bottom for "feet". Allow to set.
- Use various candies and treats for eyes, ears, muzzle, nose (mine has a snowflake nose), and tail (lollipop we stick through the last cookie).

**Just remember to have fun and be creative!**

*\*Don't forget to share your pups with us on Facebook/Instagram\**
